

Stainless Steel Rodding Eye Cleanout Square Top Heavy Duty

The Kent KRE200/110 SQ is a Sealed Rodding Eye or Cleanout. It has a Square Top with a Bottom Outlet and can be used for Heavy Duty Areas. It is also available with a 45 degree angled outlet. This is a sealed cleanroom rodding eye created by a 10mm top plate locked down onto a neoprene seal. They are designed for use primarily in Pharmaceutical factories. They can be used in both light duty and very heavy duty trafficked areas (sealed gullies are most often used in laboratories or cleanrooms which are limited to pedestrian traffic – however the 10mm top plate makes it possible to drive heavy factory traffic over these gullies).

Features

- Grade 314 (1.4301) or 316 (1.4401) Stainless Steel to BS EN 10088.
- Usable in both heavy and light duty areas
- Suitable for internal factory drainage

Product Code	Height	Width	Outlet
KRE200/110 SQ	170mm	200mm	110mm
KRE250/160 SQ	170mm	250mm	160mm
KRE200/110/45 SQ	170mm	200mm	110mm (45 degrees)

BS EN1253 Loading Class L15 / R50 / M125 / N250 / P400
 Our internal gullies can be subjected to very heavy loads but must have the correct heavy duty grating to achieve these loads. Suitable for Commercial Kitchens.

(BS EN1253 Gullies & Buildings)
