

The KVT162/50 Gully is a modified version of the KVT162/110 Gully to suit a 50mm push fit bottom outlet. It is supplied as standard with a lockdown perforated grating. The KVT162 are designed for public washrooms, shower areas, swimming pools & leisure centres.

The Foul Air Trap comes as standard on the trapped version with an optional Strainer.

The Trapped Model allows for optional flanges and side inlets to be included, simply specify any additional modifications required.

- Features:**
- Grade 304 (1.4301) or 316 (1.4401) Stainless Steel to BS EN 10088
 - Satin finish as standard
 - Customised perforated patterns available
 - Ex stock
 - Lock down as standard

Optional top covers

Perforated Grate as Standard on both models

Foul Air Trap as standard on Trapped models with optional inlets and flanges available.

Threaded Outlet options available to suit a 1.5" or 2" BSP

KENT STAINLESS: DRAIN BODY-KVBO

Kent Stainless Adjustable Height Bottom Outlet Body for Commercial Floor Drain Gullies

This is not usually sold as a standalone product and is used to demonstrate the range of options available to products with a KVBO Body option. These products account for 50 of our 48 available gullies. The outlet of these gullies remains 50 when attached to the KVBO. The advantages of the KVBO body is that it offers 50mm of vertical adjustment as well as 360 degrees of rotational freedom all while providing a wide range of flange and inlet options.

Inlet options available—Threaded inside or outside options available. Size adjustable

- 1.5" Threaded Nipple
- 1.5" Threaded Socket
- 50 mm Pushfit
- 0.5" BSP Primer Inlet

Inlets can be positioned at 45 degree increments

- Inlets at 45° angle
- Inlets at 90° angle

Flange Options Available—Puddle Flange features weepholes

- Puddle Flange
- Holding Flange
- DPM Clamp Flange

We also offer upstand inlet for more niche projects

- Side inlet with Upstand

110mm Bottom Outlet

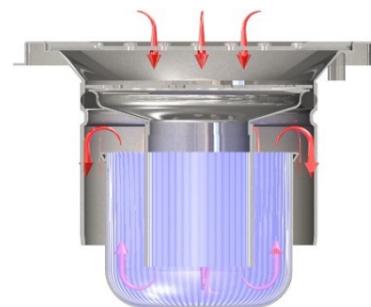

60mm 360° 5°

Made in IRELAND
