The Kent Paver T9 In Ground Potable Water Unit is an ideal product for trading areas, open air areas with events and exhibitions where potable water connections are required. In most cases it us used, for example, for a coffee vendor who needs to refill a potable water tank temporarily and then shuts the cover. This model, Type 9 has a $300 \mathrm{~mm} x$ 600 mm top recessed cover.

It includes a Non Return Valve to prevent potential back flow of containment wate

A $3 / 4$ " Mains Water inlet connects to our $1 / 2$ " Water Lever Bib Tap.

It has a Gate valve to shut off / control flow. The lid remains open during operation The unit must have a drain connection - ideally to a 110 mm bottom outlet.

The hinged recessed cover ensures the units are unobtrusive when not in-use. The cover are manufactured in accordance with FACTA and BS EN124 standards. The covers are suitable for 60 mm deep paving blocks and are manufactured to meet required loadings. They are fabricated in grade 316 stainless steel as standard.
