

Stainless Steel Roof Gully

The Kent KVV225/110RG Roof Gully is ideal for use on all types of roof construction. They are low cost and provide an excellent finish by typing into the roof membrane. The sides of the gully are perforated with 10mm slots to ensure excellent water ingress while ensuring leaves and debris do not enter the gully.

Features

- Low Cost
- Installed to waterproof roof membrane from the topside of the roof
- Short lead time
- 110mm outlet as standard

Specify: Kent KVV225/110RG Roof Gully; 225mm diameter; grade 304 stainless steel; complete with slotted grating.

Product Code	Height	Diameter	Outlet	Flow Rate
